

Who are we?

We are a large group of students of the National College "Petru Rareș" Suceava, animated by the desire to do something else in the school context.

While we like literature, music and graphics are, of course, computer enthusiasts or simply we like to play with a DV camera, why not combine all these into a single format - digital film.

When and where will it take place?

The final stage of the festival will take place at the end of **May in Suceava, Romania**. Further details will be communicated on the official website.

Who can participate?

The contest is open for all high school students, aged between 15-19 years. Teams are made up of two students, where the responsibility are usually divided into the artistic part (script, directing, fictional and non-fictional texts) and the technical and applicative part (sound, image, digital processing, etc).

- ! The team of two students will be coordinated by a supervisor.

How can you register your film?

You will have to fill in an application form available on our website and then send your films by post or by email.

Prizes?

Last edition's prize pool was over 1000 €.

- ! The projects sent will be exclusively made by the participating students. The involvement of professionals in this field will lead (if the fraud is proven during the final stage of the contest) to the disqualification of that team.

FIRST STAGE

SECTIONS

Short Films:

The short movie section will be composed of cinematographic creations with the length of maximum 15-20 minutes, in which the students only need to choose their theme according to their hobbies and aspirations of their age: family, school, love, traveling (touristic report), traveling (in groups or alone), documentary (themes of cultural interest: art, literature, folklore, ethnography), cinematography essay, etc.

Social impact advert:

We accept videos with a length of maximum 60 seconds, dedicated to raise awareness regarding some social aspects that affect the entire society: (drug, tobacco or alcohol abuse among young people, juvenile social delinquency, fighting against poverty and illiteracy, local community life, new aspects, interracial cohabitation, etc)

FINAL STAGE

If the team qualifies for both sections, for the final stage they must choose in advance the section on which they wish to participate.

The final stage will take place over the course of three days, in Suceava, Romania where you will be asked to make a movie in only one day, You will have the opportunity to participate in a specialized training session under the guidance of professionals from TVR Iași, one of the regional channels (director, image operator).

A movie theme will be communicated at your arrival, then there will be an organized trip in Suceava County where you will have the opportunity to shoot for 6 hours. Afterwards, you will be editing your videos for about 3 hours. At the end of the day, the films will be reviewed by our jury.

The VideoArt awards will take place during the next morning.

- ! **The movie shown in the contest must not have been awarded in another public context.**
